

*My coaching experience with the Epiphany Group has been extremely valuable. The coaches at Epiphany truly understand the complexities of leadership and provided me with the guidance and support I needed to navigate my role as a managing director.*

*Through the coaching process, I was able to gain a deeper understanding of my strengths and weaknesses as a leader. The coaches helped me uncover blind spots and challenged me to think differently about my approach to decision-making and team management. They provided me with practical strategies and techniques that I could immediately implement in my day-to-day work. One of the most significant changes I noticed was in the way I led my team. I became more aware of the impact I had on others and learned how to communicate and collaborate more effectively. This shift in my leadership style not only improved team dynamics but also contributed to the overall growth and success of our organisation.*

*Epiphany played a key role in our success; our company has doubled in size and significantly increased profitability over our 7-year relationship. The coaching helped us establish a stronger structure and more efficient processes, which ultimately led to our growth and success.*

*If you are considering executive coaching for the first time, I highly recommend working with the Epiphany Group. They have a team of skilled coaches who are dedicated to helping leaders reach their full potential. Be open to the process, listen to the advice, and embrace the opportunity for personal and professional growth. It will be one of the best investments you can make in yourself and your organisation.*

Rob Mackeller, Executive Chairperson, TTW
