

Systems & Compliance Effectiveness Training

These programs support organisations in strengthening operational clarity through better processes systems and safety responsibility.

The focus is on practicality and real application ensuring teams understand what is working what is not and where improvements will deliver the greatest impact.

Systems Workshop

PROGRAM OVERVIEW

A half-day to one-day workshop where we work with your team to:

- Map how your processes work in practice versus how they were designed to work
- Assess system usage, ownership, effectiveness, and gaps
- Produce a Business Information Systems Report with clear recommendations for improvement

STEPS INVOLVED

1. Scope the workshop and identify business divisions to be mapped
2. Facilitate sessions with key staff to surface processes responsibilities and system flow
3. Deliver a Business Information Systems Report outlining insights strengths risks and improvement recommendations

DURATION

Half day to one full day depending on scope

Due Diligence Training

PROGRAM OVERVIEW

A half-day to one-day session where we work with your team to:

- Clarify WHS due diligence responsibilities and legal requirements
- Outline officer and worker obligations in plain language
- Apply the requirements to your workplace context with practical, industry-relevant examples

STEPS INVOLVED

1. Align content to roles responsibilities and industry context
2. Facilitate interactive training sessions
3. Deliver a Post Workshop Report with actions risk areas and recommended improvements

DURATION

Half day to one full day depending on scope
